

# ASC Resource Base Newsletter

"You're amazing, just the way you are."

## Spring Term 1

Thank you for your continued support and communication with us in the ASC Resource Base. This week, we have thoroughly enjoyed talking about the children's experiences over the Christmas holidays - we have had some lovely circle time discussions!

### English

This half term in our guided reading and English lessons, we will be reading 'Einstein the Penguin.' Using the book as a stimulus, we will be writing non chronological reports, a three part narrative and a character description. We are continuing to work hard on our fine motor skills and handwriting as well as our sentence structure.

### Trips

We are looking forward to our trip to Hollywood Bowl on the 17<sup>th</sup> January to take part in the Penathlon event.

This event focuses on team building skills and social skills. We will share pictures with you when we have been.

### Sensory Circuit

We really enjoy our daily sensory circuits in the ASC Resource Base. Getting outside and taking part in the three areas of a sensory circuit really helps to improve concentration in the next lesson.

We are currently focusing on different jumps and using the trampoline in our alerting section, followed by balancing and target practice in the organising section. We then complete a calming section where we focus on our breathing.

### Foundation Subjects

In history this half term, we are learning all about how schools have changed. We will be thinking about our current school and comparing it to what school was like for our parents and grandparents.

In our science lessons, through lots of hands-on experiences and experiments we will learning all about magnets, friction and gravity.

In our life skills lessons, we are focusing on healthy options and will be making our own omelettes!
